KRAUSE WILD LOST TO DETROIT

Athletics Put Up a Game Fight-Tigers Speedy On the Bases-Giants Give the Cubs Another Beating-Pittsburg in Winning Stride Yet-The Eel Winner at Grand Circuit Races.

Philadelphia, Sept. 17.—Detroit won the second game of the series with Philadelphia today by 5 to 3 before a crowd of nearly 28,000 people. Each team made the most of its base hits, Philadelphia scoring all its runs by bunching five safe drives in two innings, while Detroit profited by Krause's wildness. None of Mullins four passes did any damage but four Krause's wildness. None of Mullins four passes did any damage, but four of Detroit's has were started by bases on balls or a batsman being hit by a pitched ball. In the last two innings the visitors ran the bases with great cleverness and three double steals were registered by them. Two of these double steals helped to bring a runner home. Ten sacrifice hits were made, four of them being of the sacrifice fly variety. Four sacrifice hits were made, four of them being of the sacrifice fly variety.

there was no semblance of rowdyism. The only play over which any objection was made was when Jones of Detroit bunted down the line and threw his arm up to prevent Davis from making a throw to the plate to catch Delehanty. Umpire Perrine called Delehanty out for interference.

McIntyre scored for Detroit in the first inning after getting four balls, on Bush's sacrifice, Cobb's safe bunt and Crawford's grounder to Collins. Heitmuller's single, Barry's sacrifice and Baker's single tied the score in Philadelphia's half of the first inning. Detroit again took the lead in the third inning, McIntyre again scoring on four balls, Bush's sacrifice, Cobb's scratch hit and Crawford's sacrifice fly. With one out in the fourth Cobb's scratch hit and Crawford's sacrifice fly. With one out in the fourth innin Jones was hit by a pitched ball, took third on Stanage's single and scored on Mullins' sacrifice fly. Philadelphia tied the score in the fifth inning by scoring two runs on Thomas' double, Krause's safe bunt, four balls to Heitmuller, Colling' sacrifice fly and Baker's single. One man was out in the eighth when Crawford got a pass, and Barry fumbled Delehanty's grounder. The runners worked a double steal and Morlarty's single scored Crawford. In the ninth, Mcgle scored Crawford. In the ninth, Mc-Intyre and Bush each singled and then worked a double steal, the former scoring on Cobb's sacrifice fly.

ON TIGER PLAYERS Princeton May Lose Some Stars-Field Coach McCormick and Big Squad of Players Report in Tiger Town.

With the arrival of practically ev-ery eligible member of Princeton's football squad of last season University field awoke from its three months slumber Wednesday and assumed a characteristic liveliness. Half a dozen coaches were on hand and more than 30 players cavorted around, punting, catching and passing the oval.

punting, catching and passing the oval.

The new coaching system, which has been talked of so much ever since its promulgation last winter, consists of an advisory committee of three—Howard Henry, Phil King and Walter Booth. They will be advisers.

Jim McCormick will be field coach and will have sole charge of the handling of the men on the field. Assisting him will be a cotelle of stars. The backfield will be left to McCormick. The trio of the advisory committee will render valuable assistance to the ends, line and back field, as Henry, Booth and King are familiar, respectively, with those departments.

Cabb did not treat the alleged threat

sary before they will be knowed to play.

It is a matter of conjecture who will be placed at quarterback. Dawson was always considered a good quarterback, but to everybody's surprise he was put in at fullback against Yale. It is believed that he will be used with Read or Cunningham for half back and a new man may be taught the position.

Just as doubtful as the quarterback question is that of fullback. With Hart available, no more worry will be needed, otherwise Dawson will a shift

Altogether, the Tigers are hopeful, very hopeful, in fact, as the last three years have brought failure. The schedule is an evenly balanced one. All the games but the Yale game and Navy game are at home. Dartmouth, incidentally, performs at Princeton instead of New York. It will be the big attraction, too, because of the defeat administered by the New Englanders in Gotham last year.

HIGH BALL PITCHING A THING OF THE PAST

So Says Addie Joss-Hard to for Bat-

ter to Place the Low Ones. Addie Joss, baseball pitcher par ex-cellence in the summer time and sporting editor in the off season, is of the opinion that the day of success-ful high ball pitching is a thing of the

past,
"There was a time," said Joss, "when it was the accepted theory that one of the requisites of the first class pitch-ers was ability to keep the ball around

ers was ability to keep the ball around the batter's neck.

"That is true when the man at bat is trying to pull off the hit and run play. Formerly, when the twirlers kept their fast ball high, it was pie for the batter to either step back or in, as the occasion required, and push to go. With the low ball it is different, as the batter cannot gauge the ball any too well, and finds it a difficult matter to place it.

"It is particularly hard for the batter to follow a low ball on a dark day, as was show in the second game of the world's series between New York and the Athletics on the Polo grounds.

the world's series between the world's and the Athletics on the Polo grounds.
Chief Bender, who was on the mound for Connie Mack's men, is a pitcher, for Connie Mack's men, is a pitcher, who, when right, has a tremendous amount of speed. The Athletics managed to score a few runs for Bender early in the game, and with this lead there was no chance for the Giants to catch up. Bender had the advtange of the gathering gloom, and this, coupled with his ability to keep his fast ball low, proved a stumbling-block for the aggressive Giants."

Having the advantage of one game over Westerly Stonington has the odds all in her favor, as the game is on her own grounds and she can afford to lose one of the two games without losing the lead in the race. THAT COBB ROW.

The troubles of Ty Cobb, growing out of that row in Cleveland with a hotel watchman, have all been satisfactorily settled, and the attempt to make out of it a sensation discreditable to Cobb has failed. It was wired from Cleveland on Tuesday that a warrant, charging Cobb with assault with intent to kill, had been sworn out that day before Justice William Brown by J. J. Klein, attorney for George Stanfield, night watchman at the Euclid hotel who, it was said, was assaulted by the ball player at the ho-

Regarding his trouble with the aforesaid watchman, Cobb said:

"I attended a theater Friday night at Cleveland with some members of the Detroit team and after the show had lunch with Yaughn, Glaser and another member of the company. When I returned to the Euclid hotel I found a card asking me to call at a room on the second flow.

Cobb did not treat the alleged threat of arrest seriously and Manager Jen-nings denounced it as a "frameup" to keep Cobb out of the game for a time, and thus endanger the Tigers' pen-nant chances. The club owners, however, took a more serious view of the matter and exerted themselves to set-tle the trouble in some way.

we are able to give back to a patient the full set of teeth he or she started in with in the beginning. All we require is two or more teeth in each jaw to work from, and we shall not resort to plates or ordinary bridgework in the process of the work. Your mouth will be free from in-

cumbrances. Before we accomplish this result we put the gums and the natural teeth in a healthy condition, tightening the teeth which may be lobse and curing pyorrhea if the patient is afflicted with that dreadful dis-

All of the teeth we supply are practical teeth; each set in its own practical teeth; each set in its own socket following nature's plan, so that the strain is equally divided. One is able to bite on these teeth and use them in exactly the same manner as he would his natural teeth. They match nature's teeth so closely as to deceive experts. They are beautiful to look at and a source of constant delight to the one wh wears them.

A PAINLESS PROCESS An impression has gone forth that there is some surgical operation onnected with this method of restoring missing teeth. Some people have written in to know if we bore down into the bone and put the

teeth in on pegs! Others have an idea we set the new teeth into the sockets where the natural teeth were originally. It is quite natural that some nothinking people would ask such ques-

tions, and in order that they may be fully answered we will state that there is no boring, no cutting, no implantation about this method: nothing about the work that is painful while it is being done or afterward. Patients leave the office with these teeth in place and at once begin chewing meat, eating candy, toust, or anything else with the same comfort they would enjoy if every tooth in their head had grown there.

If we couldn't promise this and make good on the promise, the Restoration Method would not be a success. It would be no better than ordinary bridgework or partial plates. WE ARE GENERAL PRACTITIONERS
